

A book for reviewing plant cell shape regulation

Liechi Zhang

2020-03-09

Contents

1	Preface	5
2	Introduction	7
3	Cytoskeleton and cell expansion	9
4	Auxin and cell expansion	11
5	Membrane dynamics during cell expansion	13
6	Final Words	15

Chapter 1

Preface

Chapter 2

Introduction

Chapter 3

Cytoskeleton and cell expansion

Here is a review of cytoskeleton.

Chapter 4

Auxin and cell expansion

We describe our methods in this chapter.

I cite an auxin paper (Abley et al., 2013).

Chapter 5

Membrane dynamics during cell expansion

Chapter 6

Final Words

We have finished a nice book.

Bibliography

Abley, K., Barbier de Reuille, P., Strutt, D., Bangham, A., Prusinkiewicz, P., Marée, A. F., Grieneisen, V. A., and Coen, E. (2013). An intracellular partitioning-based framework for tissue cell polarity in plants and animals. *Development (Cambridge)*, 140(10):2061–2074.
